

The Menninger Clock Tower in Topeka, Kansas

The Menninger Clinic was founded in 1919 in Topeka, Kansas. This was followed by the founding of the Menninger Sanitarium in 1925 and the Menninger Foundation in 1941. The Menninger School of Psychiatry was established in 1946. It quickly became the largest training center in the country, driven by the country's demand for psychiatrists to treat military veterans.
